

Product Data Sheet

Product Name: Gyproc Mesh Joint Tape

Usage:

Typically use as common tape at gypsum board joint, together with proprietary jointing compound to form a strong seal and providing seamless finishing. Not for direct external use.

- Self-adhesive — Convenient application in construction
- High mechanical strength — Fiberglass mesh for stronger joints.
- Smooth finish — Open mesh to eliminate blisters and air bubbles.

Technical Specification:

Weight (g/m²)	65 – 70
Width(mm)	50±1
Length(m)	70±1
Weave Type:	Twill Woven
Yarn Type:	C-Glass
Color:	White
Packaging:	60 rolls per carton
